

EXTENDED ACCESS MEMBERSHIP (EAM) List

Saskatchewan College of Occupational Therapists (SCOT) extended access members are available to persons who are currently registered as an occupational therapist and are in good standing pursuant to the legislation of another jurisdiction in Canada. SCOT extended access members **must** maintain a valid licence or permit to practice in another Canadian jurisdiction while holding an extended access membership. If their licence expires in the jurisdiction in which they are registered in, this membership will be null and void.

An extended access membership entitles a member to provide virtual services to a person who is physically situated in Saskatchewan. Extended access members do **not** have a SCOT licence to provide **in-person** services as an occupational therapist in Saskatchewan.

The following list of SCOT Extended Access Members is current as of **July 19, 2024**. However, please check that the SCOT member has a current practising licence in the province listed below. Please contact us at admin@scot.sk.ca if you have any questions.

If you have a concern with or wish to submit a formal complaint about an extended access member, please contact the regulatory body the EAM is licenced with. Full names and acronyms with a link to their website is provided at the bottom of this document.

Last Name	First Name	Province the EAM is Licensed in as of July 19, 2024	Regulatory Body EAM is Licenced with	Expiry Date	SCOT EAM #
